

## We're innovative and community focused

Statkraft is dedicated to engaging with communities and finding different ways to bring positive benefits.

We want to talk to you about how our project can bring new investment to your community. We are open to your ideas.

### Community Benefit Fund

We are committed to a Community Benefit Fund that delivers, £5,000 per MW installed per year as per Scottish Government recommendations. If consented, the project will generate £693,000<sup>(2)</sup> per year for local groups and initiatives.

<sup>(2)</sup> Based on 21 x 6.6MW. If consented, value of fund determined by actual installed capacity.

### Shared Ownership

We are open to offering Shared Ownership on our projects, if there is local interest. We are keen to hear your views on enabling the community to have a financial share in the project.

**Statkraft's An Càrr Dubh Project Team (L-R):**  
**Scott Vallance,**  
*Senior Project Manager*  
**Ruth Semple,**  
*Community Liaison Manager*  
**Ciaran Black,**  
*Project Developer*

### Improved Broadband

From our first exhibition there is local interest in improved broadband in the area. Join our exhibition to hear about our broadband feasibility study.

### Local supply chain

We want to work with local businesses to deliver our projects. Visit our project website to find out how local businesses can register their interest.

Please return the freepost reply card provided.

# Invitation to Public Exhibition: 1 – 21 November 2021

## An Càrr Dubh Wind Farm Proposal

Our first exhibition was held in June and July 2021 to introduce ourselves and the An Càrr Dubh<sup>(1)</sup> Wind Farm proposal. Since then we have progressed our studies and refined the design. We invite you to review our current plans, online or in person, and provide your feedback. We expect to submit our final plans to the Scottish Government in 2022.

Berry Burn Wind Farm, Moray, 29 turbines, 100m tip height.

### A VARIETY OF WAYS TO FIND OUT MORE:

**3 week**  
ONLINE EXHIBITION

**3 local**  
DROP IN SESSIONS

**1 online**  
CHAT SESSION

Covid-19 restrictions have eased and we look forward to hosting local in person drop in sessions. To help manage Covid-19 risks, we are operating an appointment system. Find out more inside.

<sup>(1)</sup> We have renamed the wind farm, following local feedback and further advice, to both accurately reflect local Gaelic and the wind farm location.

## About Us

Statkraft is Europe's largest generator of renewable energy, with origins going back 125 years in Norwegian hydro power. Our Scottish headquarters are in Glasgow and we have 4,600 employees across 18 countries.

# An Càrr Dubh Wind Farm Proposal

## Project Summary

# 21

Up to 21 wind turbines proposed (reduced from 26)

# £693k

£693k per year for a Community Fund\*

Maximum blade tip height:

# 180m

(reduced from 200m)

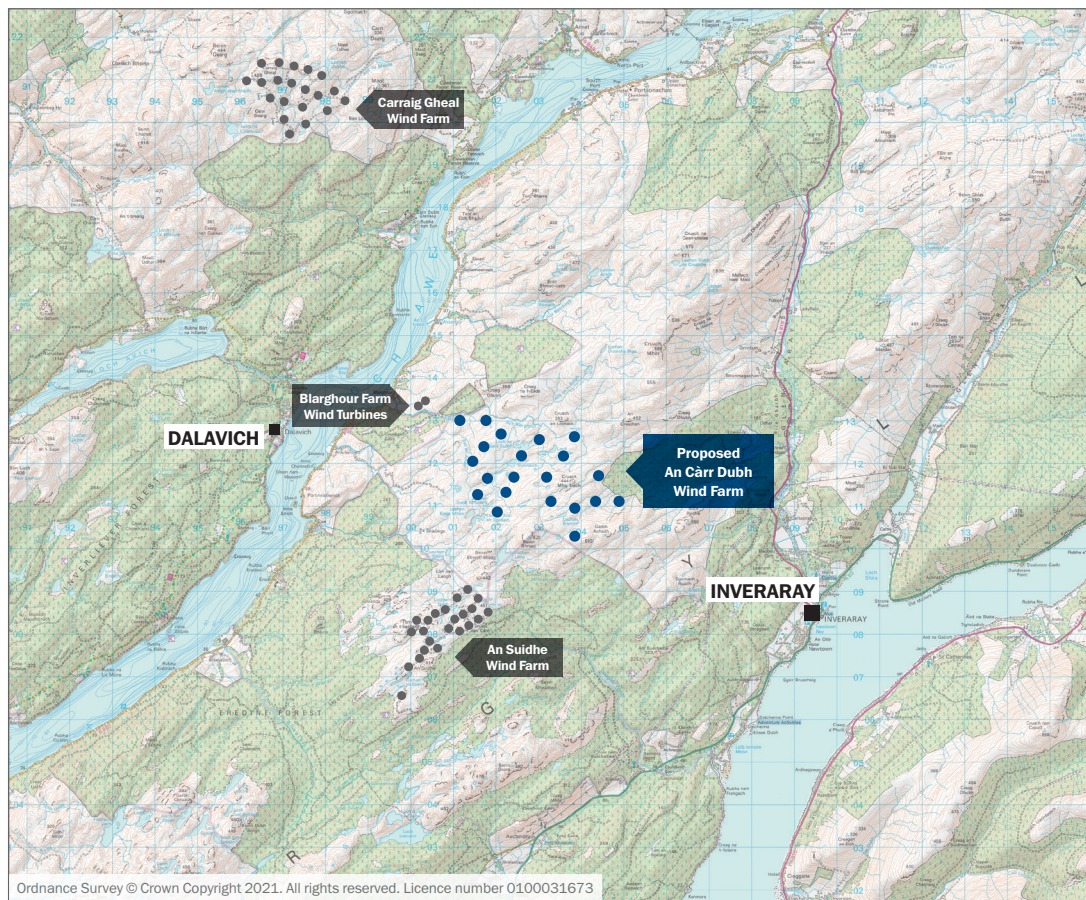

Exciting opportunity to talk about shared ownership and local suppliers

Explore the potential for improved broadband provision

## Community engagement is very important to us.

Since introducing our plans in May 2021 we have listened to feedback to shape the development. The number of turbines has reduced from 26 to 21, and the maximum blade tip height reduced from 200m to 180m. We welcome your feedback as we continue to finalise the design to minimise both the footprint and impacts of the wind farm.

**Book an appointment at a drop in session. You will be able to speak with members of the Project Team and to view an animation of the current wind farm design to see how it may look within the local area. We look forward to meeting you.**
