

Coylton Greener Grid Park Community Liaison Group Update 10 November 2025

Due to a light agenda for the scheduled meeting for November 2025, a written update is provided to members in lieu of a meeting.

Construction Update –

- Civil engineering works are nearing completion
- The electricity grid route cable which connects the project to the electricity grid has been pulled in
- Main 275kV equipment has been installed in the HV Yard
- Landscaping works are underway
- Modular buildings have been installed and internal equipment installation is well underway
- All BESS equipment is installed with handover to our supplier anticipated in December

275kV cable ready to installed through ducting to connect the project to Scottish Power's substation.

Trenches for cables connecting the project to the substation

Communications Update

There is no contact to report from members of the public to our email or 0800 number. This is to be expected given the decreasing level of construction traffic and works on the site.

Pending actions, or actions raised by the CLG individually

Action	Person	Status
Kate Brown to check with the development team and report back regarding whether there would be a Community Benefit Fund for the proposed section 36 application.	Kate Brown	Confirmed to Alex Baird via email.
