SHORT LIST ID	APP REF	DESCRIPTION
1	EN010143 - East Yorkshire Solar Farm	The Scheme will comprise the construction, operation (including maintenance), and decommissioning of a solar photovoltaic (PV) electricity generating facility, with a total capacity exceeding 50 megawatts (MW) and export connection to the national electricity transmission system at National Grid's Drax Substation.
2	EN0110012 - Light Valley Solar	The project comprises seven solar development sites, located in rural areas to the north and east of Selby, covering an area of approximately 1022ha. Within the boundaries of these sites, ground mounted solar photovoltaic (PV) modules accompanied with the necessary infrastructure to generate and store electricity, and environmental mitigation / biodiversity net gain areas, are proposed. The proposal also includes approximately 30 km of underground cabling, both on and off-site, to connect between the sites and to National Grid's transmission network.
