Speedwell Solar Farm

It was lovely to catch up again recently at Gwinear School.

As you may know, we have been working closely with experts at the Bumblebee Conservation Trust to develop solar farms that enhance, restore, and create bumblebee habitats. Solar farms have the potential to provide an ideal environment for bee habitats because they can support a range of attractive microhabitats for these important pollinators.

Please find enclosed a school pack, which we thought might be helpful for teachers to support learning about bumblebees in class. If you would like one for each classroom, I will bring some additional sets with me when I'm in the area next week.

We look forward to seeing members of the school community at one of our consultation events for Speedwell Solar Farm; from 4-8pm on 27 June at Gwinear-Gwithian Parish Hall and 2-5pm on 28 June at Hall for Gwinear. More information can be found on www.speedwell-solar.co.uk.

If you have any queries in the meantime, our community engagement team are available on 0800 772 0668 or email UKProjects@statkraft.com.

Yours sincerely,

Tim MacKellar
Project Manager, UK Wind & Solar
