

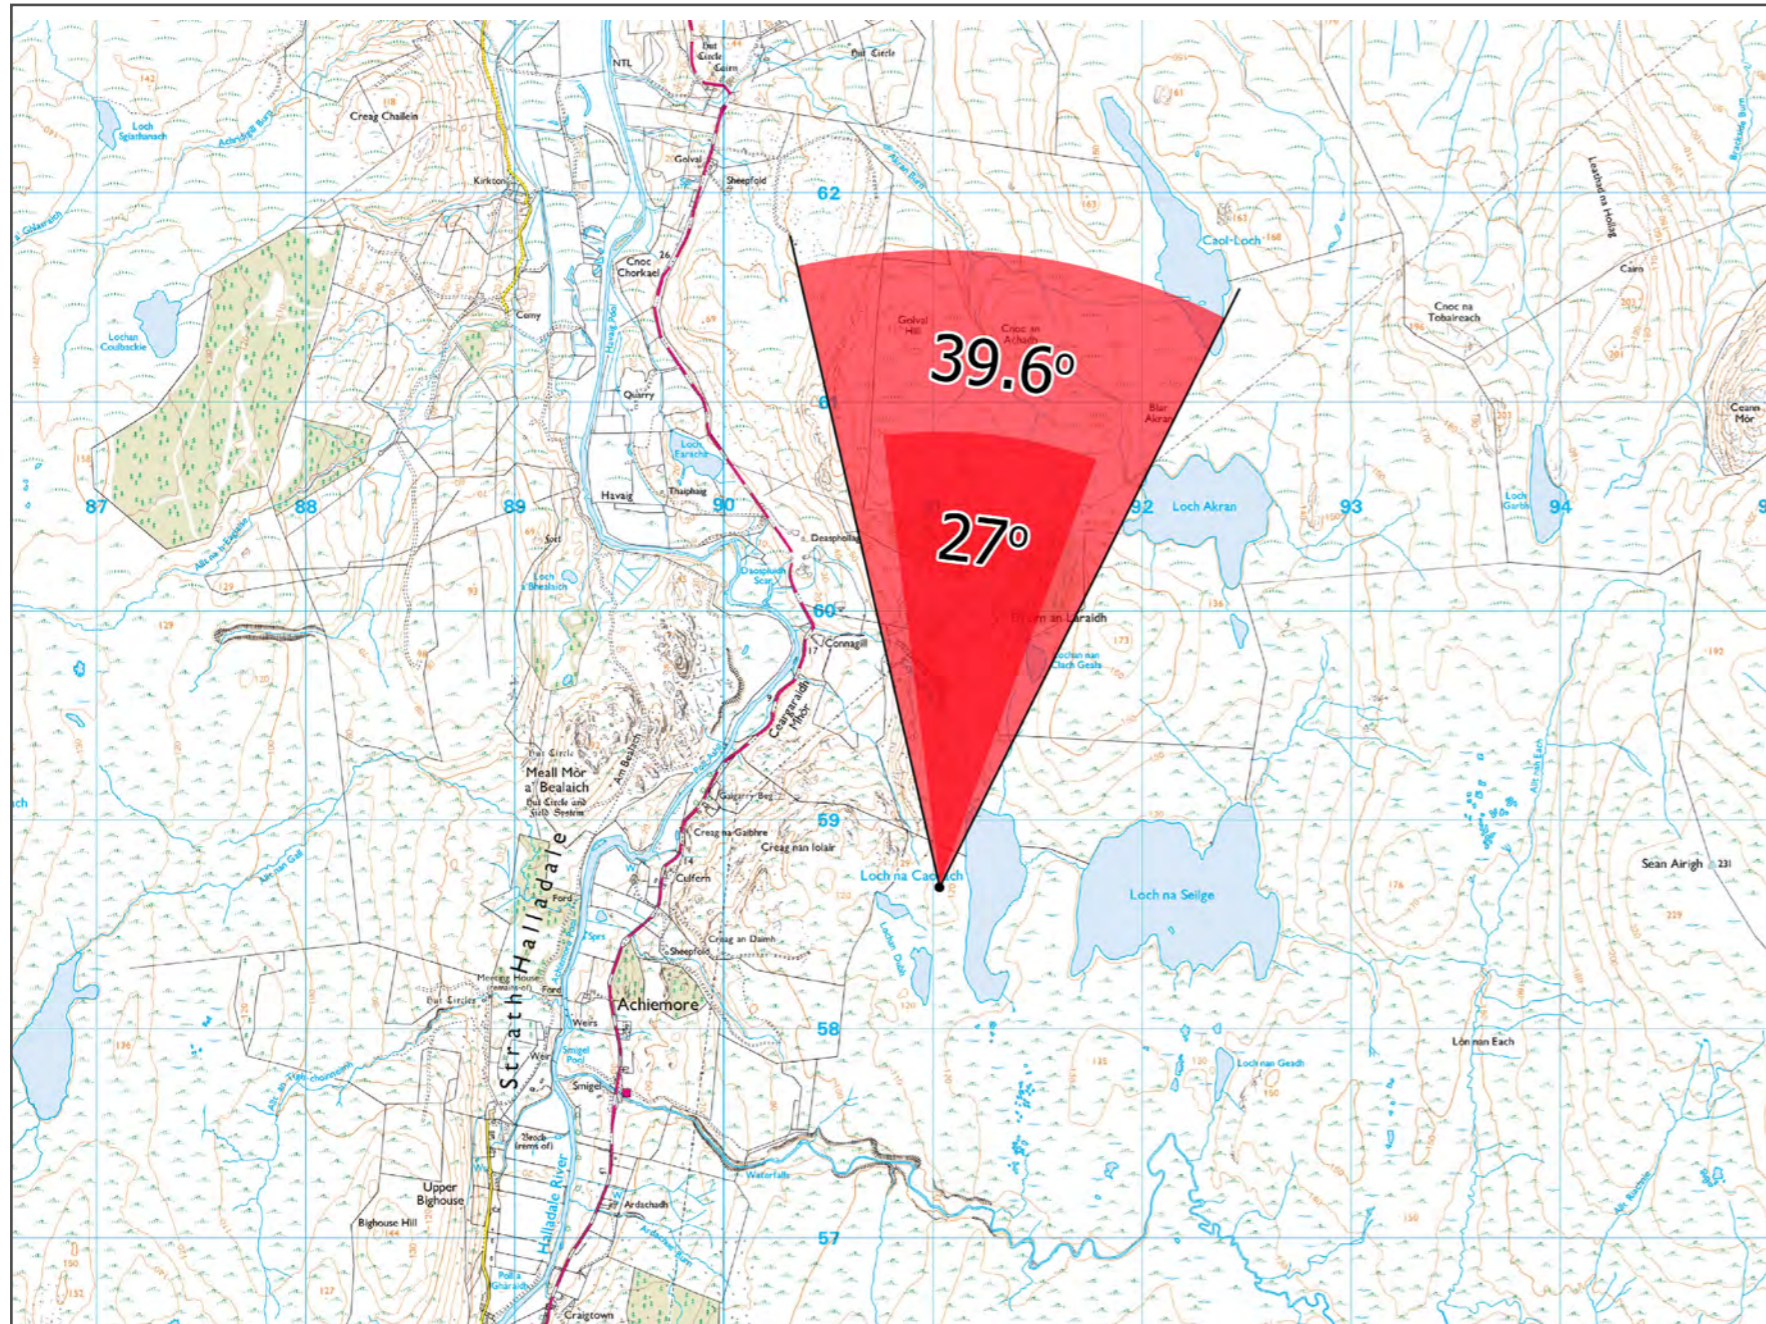

Figure 6.' &g - Viewpoint 7 : Loch na Caorach - Wild Land Area.

Grid Reference: 291030 958679 Distance to nearest turbine: 3048m AOD: 131m

This viewpoint is located off the A897 approximately 1km southeast of VP8 at Strath Halladale.

Travel west out of Reay along the A836 towards Tongue and the location of VP4. Continue travelling on the A836 west beyond VP4 towards VP5, but take the turning off left signposted for the A897 Helmsdale. Travel for approximately 4.5km and just before the large substation on your left, park at the area near the cattle grid. Now on foot pass through the double gate at the roadside near the cattle grid and head southeasterly uphill and along the argo track ensuring the forestry is kept to the left of the track until Lochan nan Clach Geala is reached. Continue along the flatter, gentler track which will lead to the last gate on the hill from which both Na Caorach and Na Seilge can be overlooked. The last, short leg of the walk is downhill in a southerly direction towards the north shore of the Loch.

The camera location on the western side of the Loch as shown in the adjacent photograph.

Distance to nearest turbine: 3048m Camera: Nikon D610 Focal Length: 50mm vertical (27°) x 28mm horizontal (65.5°) Camera height: 1.5m Date: '07/07/2020 15:56

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

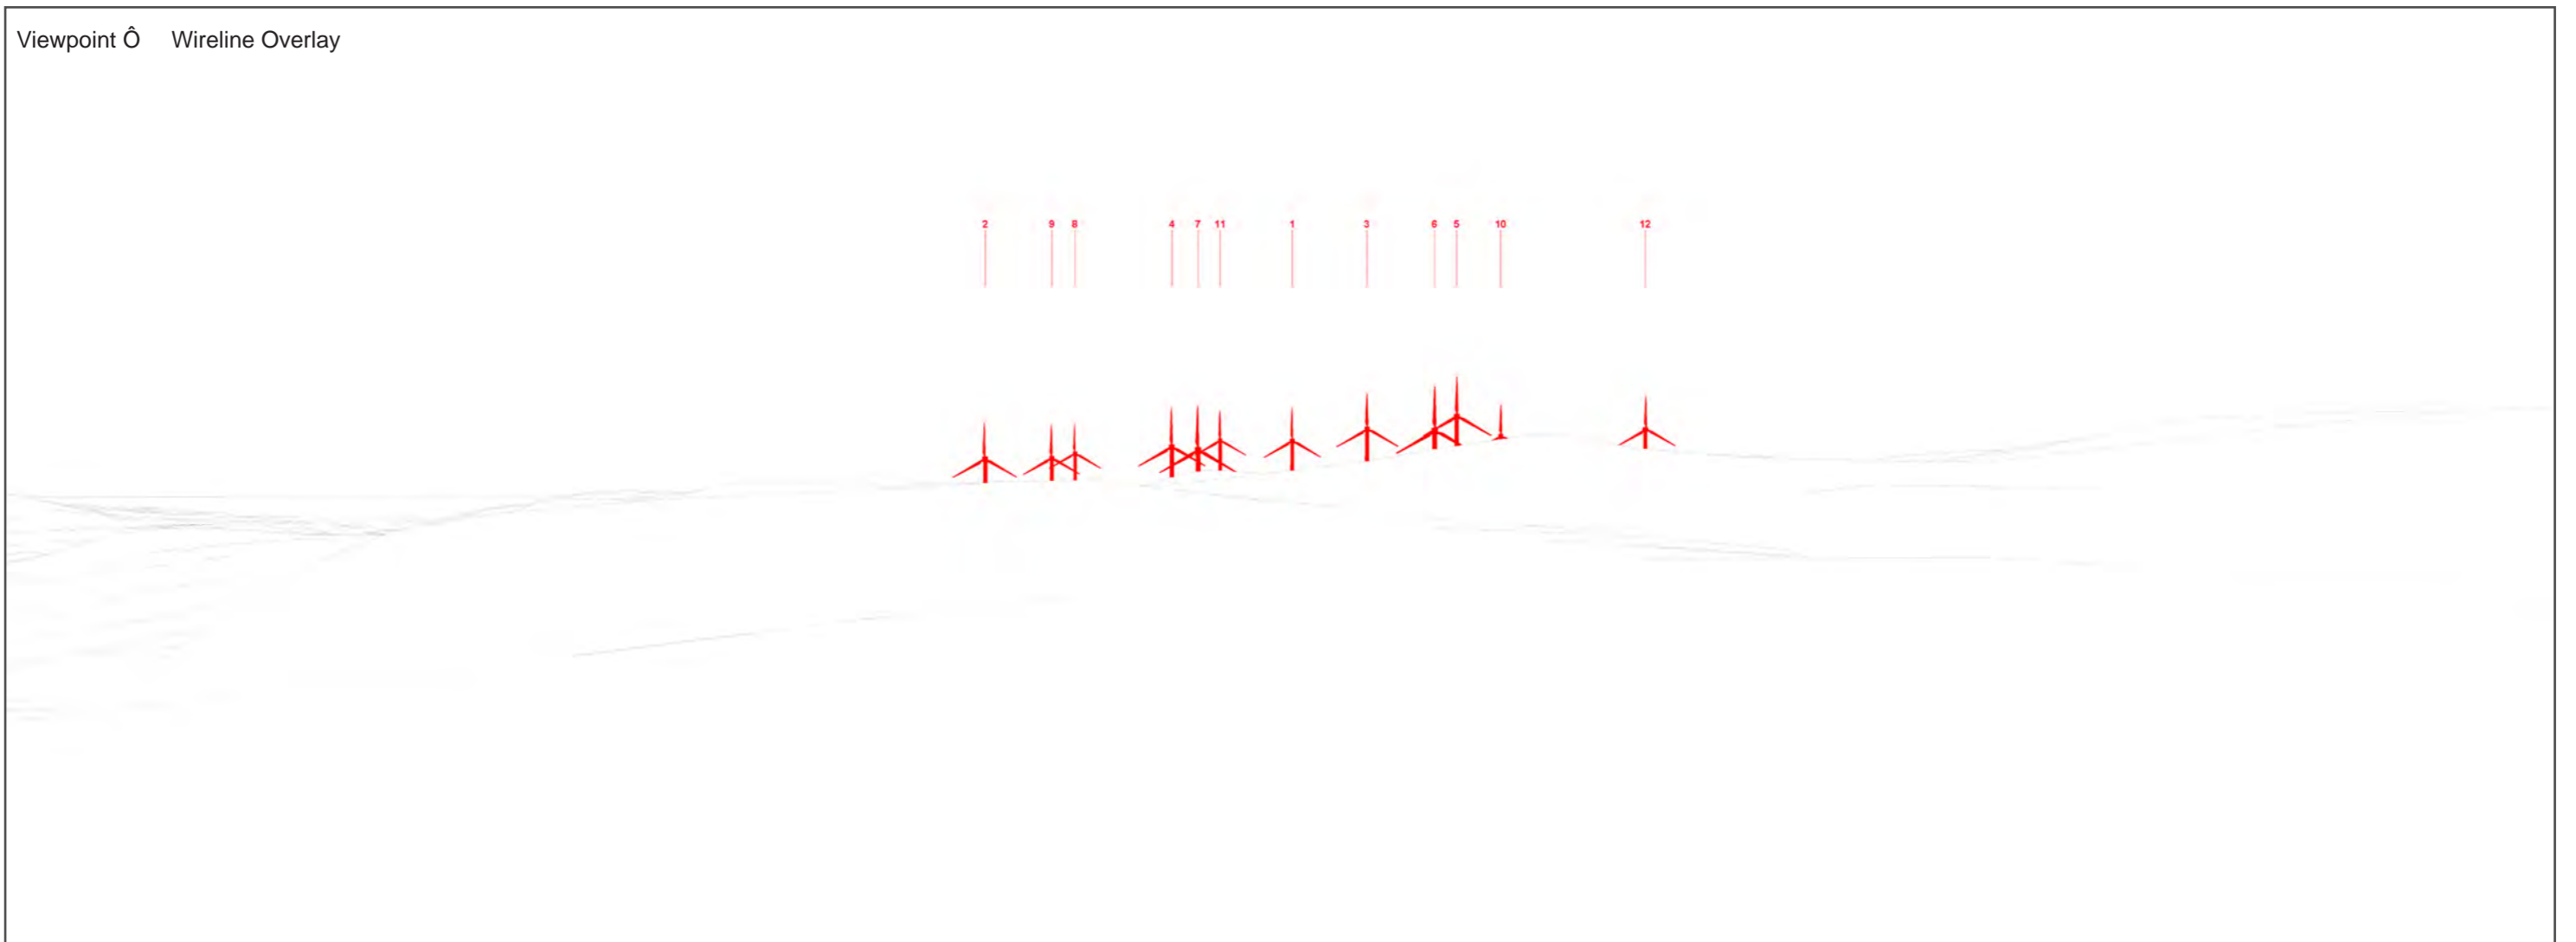

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.
