

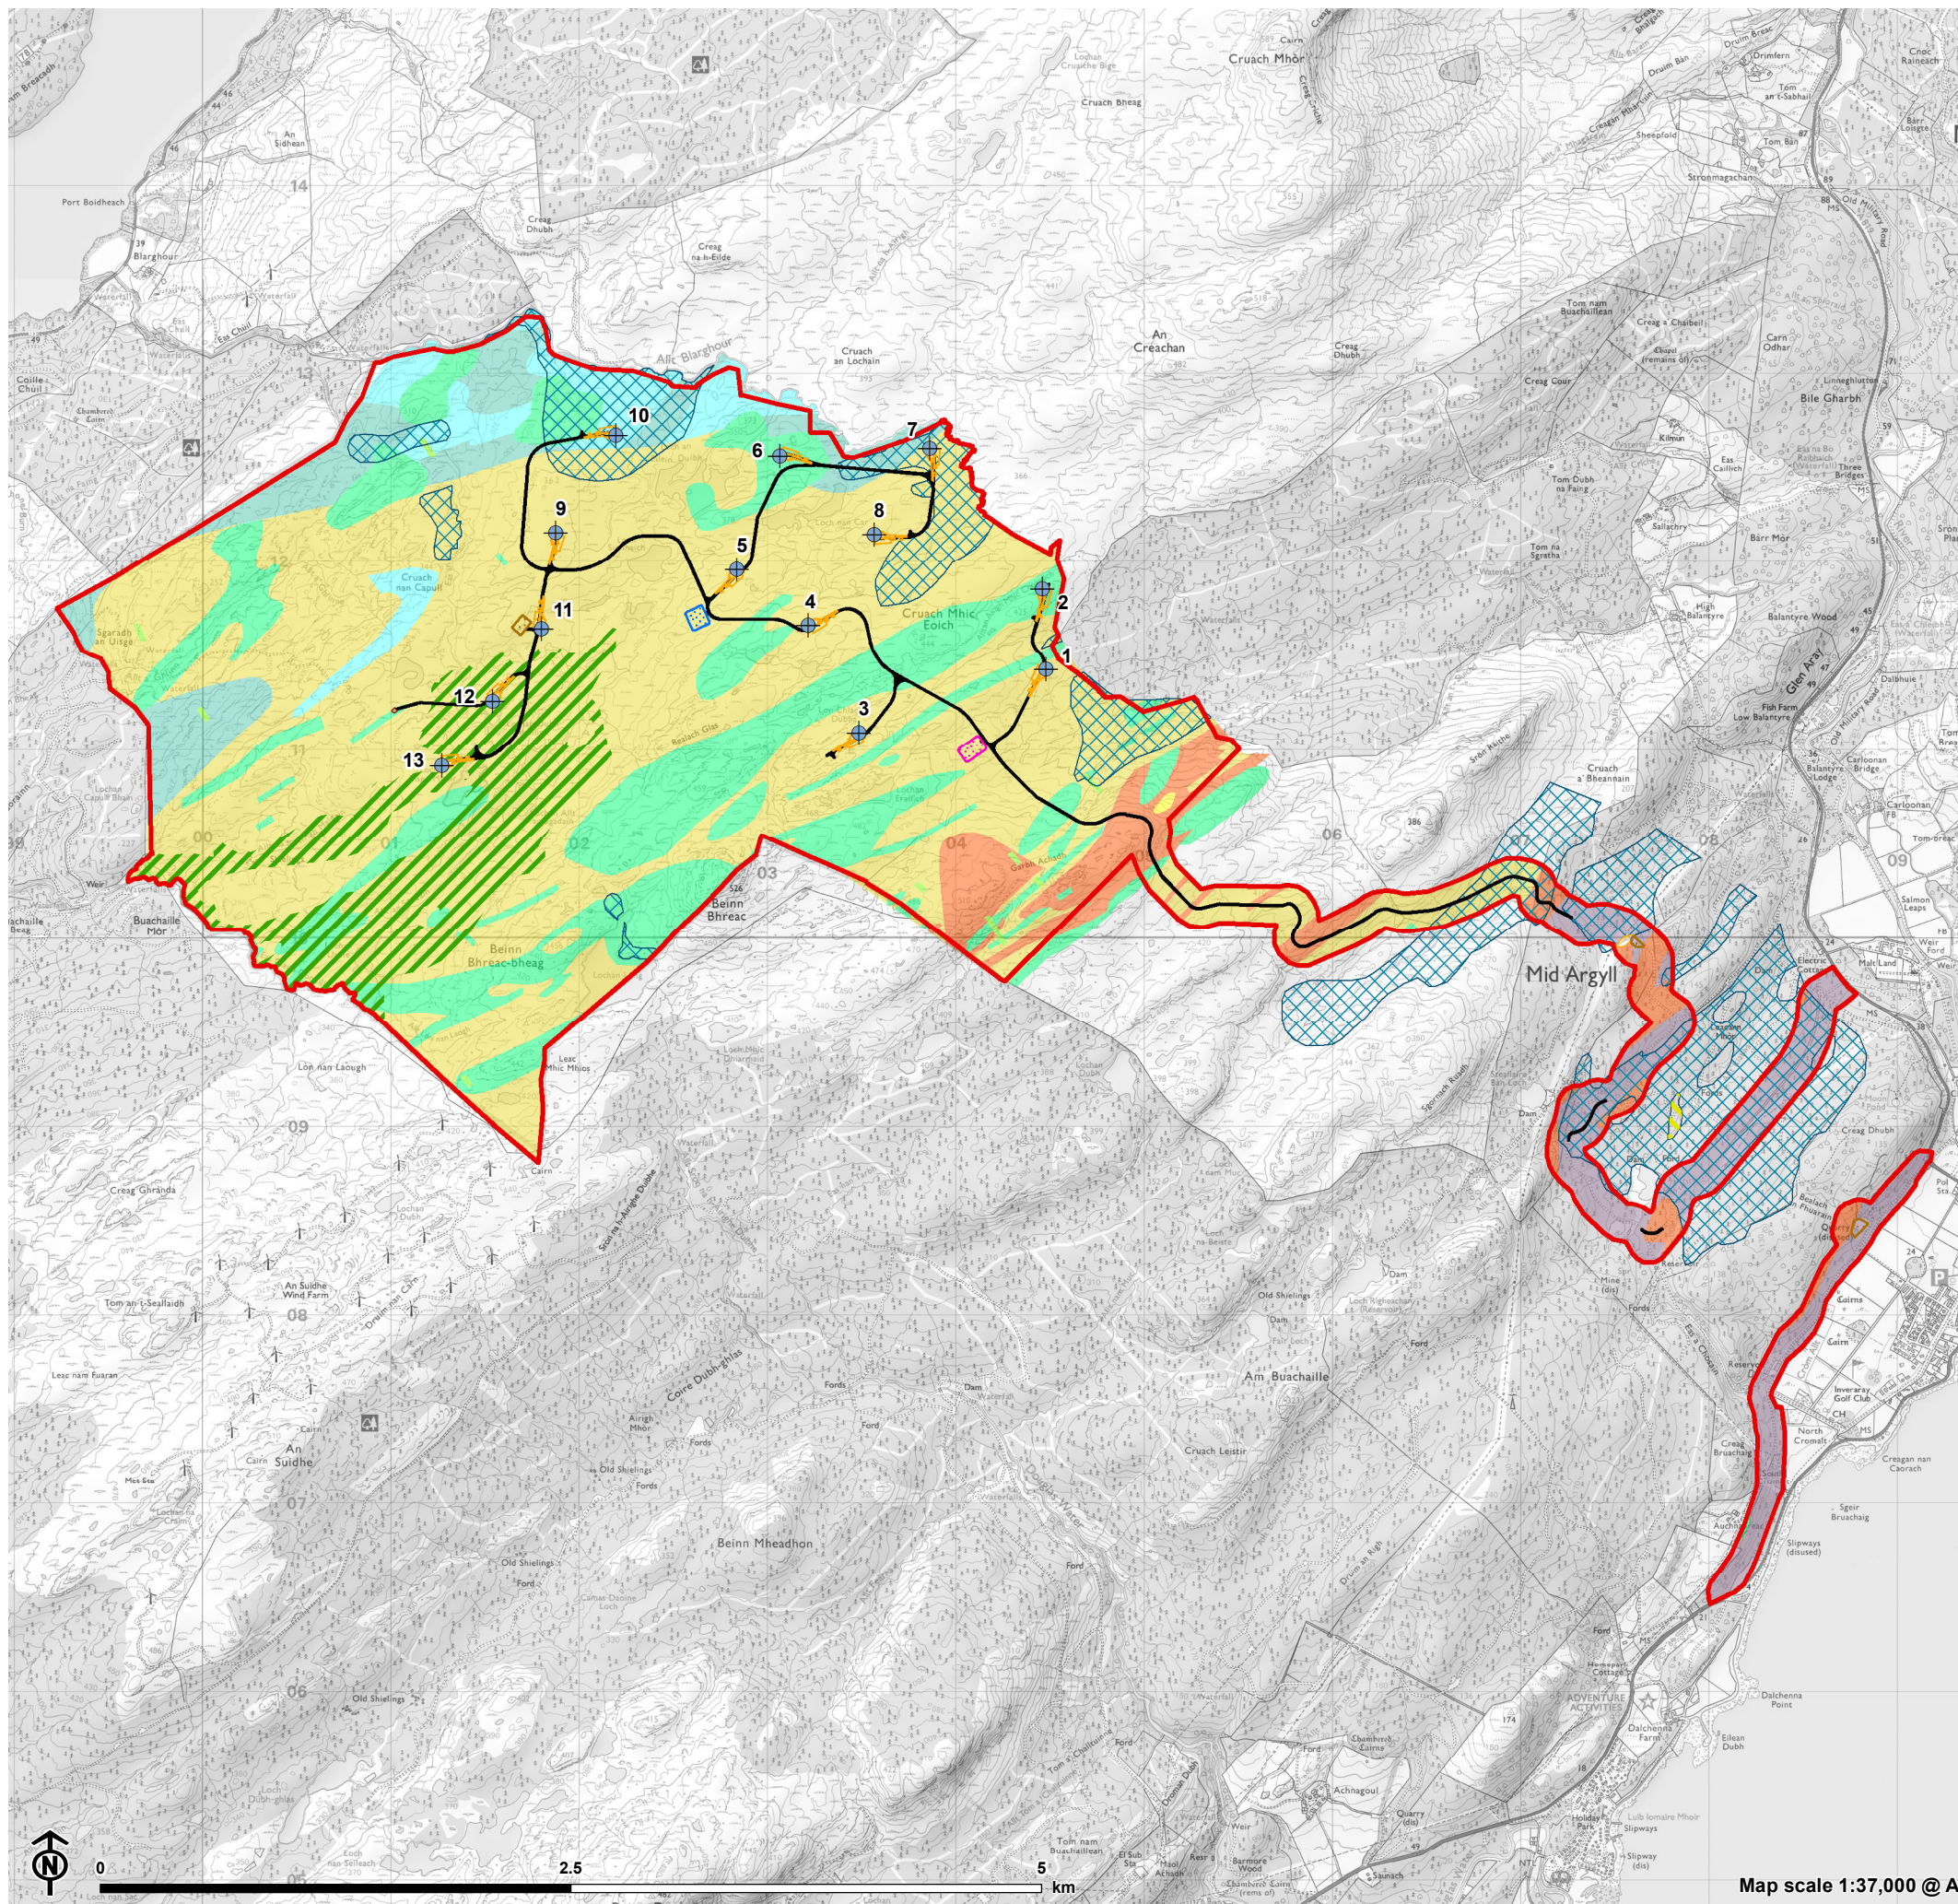

Figure 7.4: Superficial and Bedrock Geology

- Site boundary
 - Turbine
 - Borrow pit
 - Temporary construction compound
 - Permanent compound including substation and BESS
 - Temporary hardstanding
 - Permanent hardstanding
 - Permanent met mast
 - Proposed track
- Superficial geology**
- Alluvium - Clay, Silt, Sand and Gravel
 - Hummocky (Moundy) Glacial Deposits - Diamicton, Sand and Gravel
 - River Terrace Deposits - Gravel, Sand, Silt and Clay
 - Till, Devensian - Diamicton
- Bedrock geology**
- Argyll Group - Quartzite, Metalmestone and Phyllitic Semipelite
 - Crinan Grit Formation – Metalmestone
 - Crinan Grit Formation – Quartzite
 - Dalradian Supergroup - Metagabbro and Metamicrogabbro
 - Mull Dyke-Swarm - Basalt and Microgabbro
 - Scottish Highland Siluro-Devonian Calc-Alkaline Minor Intrusion Suite (Other Than Dykes) – Felsite
 - Ardrishaig Phyllite Formation - Semipelite, Calcareous
 - Tayvallich Slate And Limestone Formation – Metalmestone
 - Tayvallich Slate And Limestone Formation - Pelite, Graphitic
