

We're innovative and community focused

Statkraft is dedicated to engaging with communities and finding different ways to bring positive benefits.

We want to talk to you about how our project can bring new investment to your community. We are open to your ideas.

Community Benefit Fund

We are committed to a Community Benefit Fund that delivers £5,000 per MW installed as per Scottish Government recommendation. If consented, the project will generate over £330,000 per year for local groups and initiatives.

Shared Ownership

We are open to offering Shared Ownership on our projects, if there is local interest. We would like to hear your views on enabling the community to have a financial share in the project.

Improved Broadband

Join our online exhibition to find out more about our feasibility study to gauge the potential opportunity for this project to facilitate improved broadband access.

Local supply chain

We want to work with local businesses to deliver our projects. Visit our project website for information on how local businesses can register their interest.

Invitation to Virtual Exhibition: 24 August – 18 September 2020

Artfield Forest Wind Farm Proposal

We would like to tell you more about ourselves and our proposal for a sustainable energy project, including community investment and improved broadband potential in your area.

We are bringing forward proposals for Artfield Forest Wind Farm, located approximately 8km northeast of Glenluce. In line with Scottish Government advice in relation to Covid-19, we are holding a series of online consultation events, where you can find out more about the plans and help shape the project.

About Us

Statkraft is Europe's largest generator of renewable energy, with origins going back 125 years in Norwegian hydro power. Our Scottish headquarters are in Glasgow and we have 4000 employees across 17 countries.

Artfield Forest Wind Farm Proposal

Project Summary

Community engagement is very important to us.

We would like to invite you to our online public exhibition. We are committed to listening to communities as we seek to shape our development before it is finalised.

Online Exhibition:
www.artfield-forest.co.uk

12

Up to 12 wind turbines proposed

£336k

Up to £336,000 per year for a Community Fund*

A maximum height

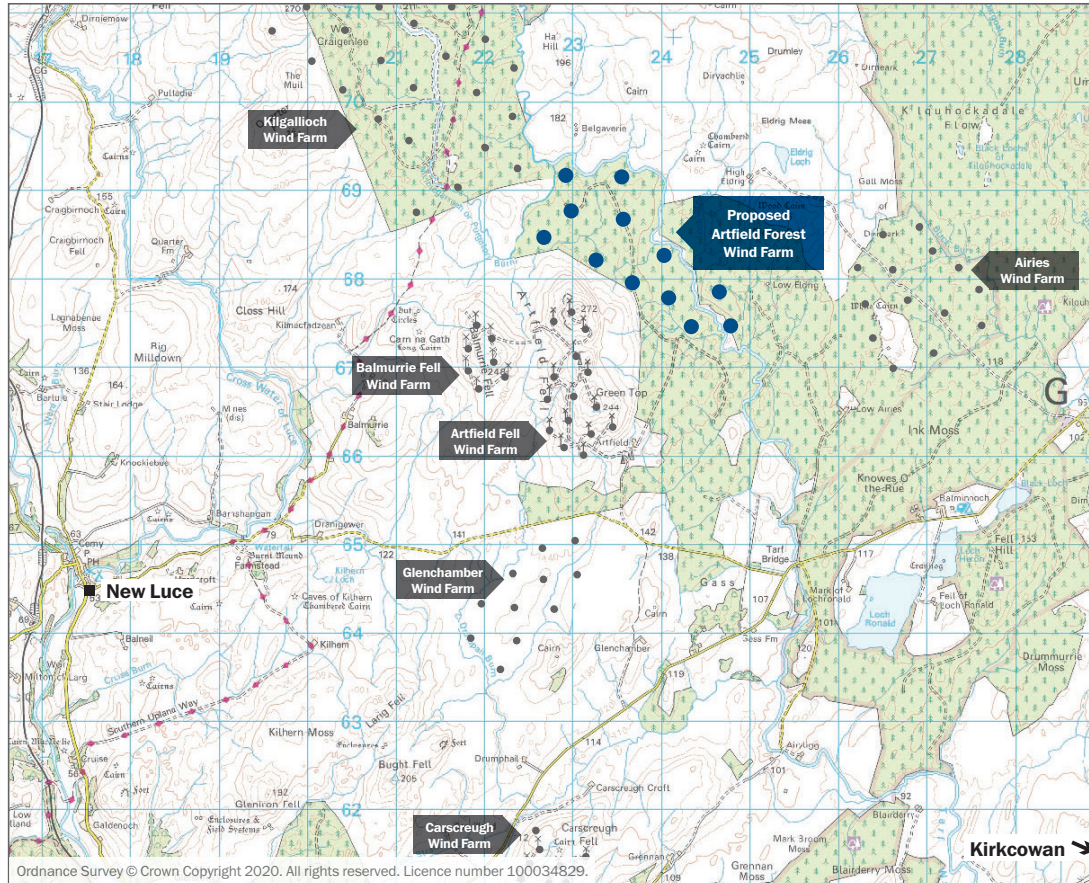

180m

Exciting new opportunity to talk about shared ownership and local suppliers

Potential for improved broadband provision

Our exhibition is being held online due to COVID19 restrictions in place.

The exhibition will be available to visit between 24 August – 18 September.

Ask questions, chat online or book a phone call

Live chat sessions with the project team
