[Read the public consultation invite sent to neighbours here.](#)

Berry Burn Wind Farm has been operating since 2014, and consist of 29 turbines. In a typical year it generates electricity equivalent to the needs of 47,000 homes. To date the wind farm has delivered over £1.3 million to over 100 local groups and initiatives via the Community Benefit Fund.

An application was submitted to extend the existing wind farm by 9 turbines. In March 2021 the Moray Council Planning Committee voted not to object to the proposed extension. In December 2021 consent was received by the Ministers of the Scottish Government.

Project timeline

Stage 3: Submit Planning Application, and Decision (12 months)

An application is submitted to the Scottish Government, accompanied by a comprehensive Environmental Report showing the results of all studies undertaken. This is publicly available information.

[SHOW MORE](#)

Stage 4: Pre Construction (12 months)

If approved, there is a minimum one year gap before construction.

[SHOW MORE](#)

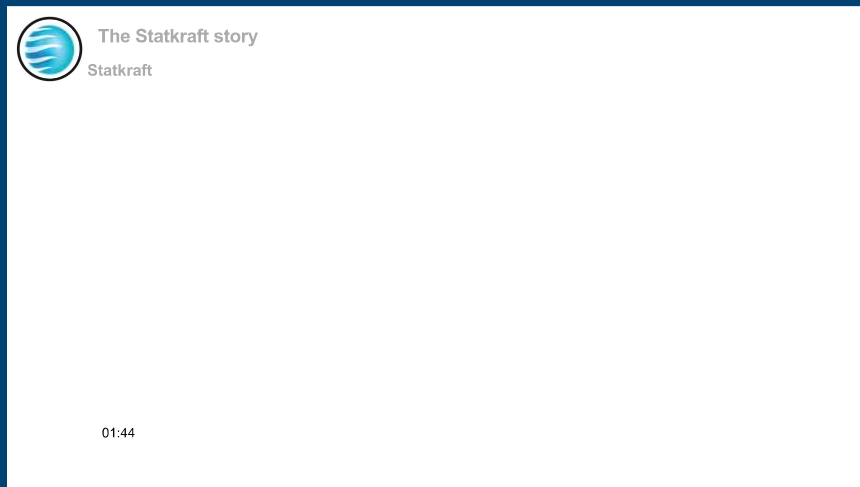

Stage 5: Construction (12 months)

Construction typically takes 12 months. Planning conditions are used to manage construction such as hours of work and delivery time.

Temporary Met Mast Works Begin

On site works to install the temporary meteorological mast (met mast) are due to start next week, 29 August 2023. It is expected, depending on weather, that the works will be complete at the beginning of September.

[Show more +](#)

13 MAR, 2023

Temporary Met Mast Approved

Moray Council have approved our application to install a temporary met mast, of up to 80 metres in height.

The mast will measure the wind resource and be present for up to two years. The met mast was consented in March 2023 and you can view all details planning [here](#).

HOME BERRY BURN EXTENSION > EXHIBITION - OC...

Proposals for Borrow Pits – Berry Burn Extension Wind Farm

As part of our construction preparations, we are proposing to submit a planning application to enable the use of borrow pits during the construction period. We are not seeking planning permission for any further wind turbines, beyond the nine that are already consented.

We have created this area within the project website to share the information available at our consultation events, to allow those who are unable to attend in person an alternative way to view and comment on the proposals.

Information boards

Below are the information boards displayed at Dallas Village Hall.

Your Feedback and Questions

Please [get in touch](#) to ask any questions or provide your feedback about the project.

Please provide your comments on the proposal until 13 November 2024.

Comments should be made to us via:

- the [Get in Touch](#) form on this website
- post to FREEPOST STATKRAFT
- phone 0800 772 0668

Comments on the proposals should be made to the project team and not to Moray Council. Any comments made at this pre-application stage are not formal representations to the Planning Authority. An opportunity will be provided as part of any planning application to make formal representations on the proposal.
