

Site Boundary

Site Boundary 500 m Buffer

Proposed Turbine Location (180 m Blade Tip Height)

Proposed Turbine Location (200 m Blade Tip Height)

Proposed New Access Track

Proposed Upgraded Access Track

Access Tracks 100 m Buffer

Proposed Permanent Hardstanding

Proposed Permanent Substation

Proposed Temporary Substation Compound

Proposed Temporary Construction Compound

Proposed Borrow Pit Search Area

Hardstanding / Substation / Compound / Borrow Pit 100 m Buffer

Hardstanding / Substation / Compound / Borrow Pit 100 m Buffer

Proposed Infrastructure 10 m Buffer

Groundwater Dependent Terrestrial Ecosystems (GWDTE) as defined using SEPA Guidance

M15

M23

M6

W4

45' Lines = Vegetation Mosaic

Note: NVC Classification

NVC Community presence is symbolised by a solid fill colour.
Vegetation mosaic is symbolised by a hashed line.

Note: Assessment only conducted in wind farm site.
