

Figure 4.31g - Viewpoint 19: Creag Mhor Summit.

Grid Reference: 269834 923998 Distance to nearest turbine: 36.80km AOD: 713m

This viewpoint is located approximately 18km Southwest of Kinbrace.

From Kinbrace, travel northwest on the B871 towards Badanloch Lodge. Just before the lodge there is a track leading down left to Loch Badanloch with a large layby on the roadside. Park here.

From this point on it is strongly recommended that the user sources designated mapping for this walk. There are several websites detailing walks to the summit of Creag Mhor.

The camera location is at the summit just down from the stone cairn and trig point as shown in the adjacent photograph.

Extent of 50mm single frame image

**Creag Mhor Summit**

Distance to nearest turbine: 36.80km    Camera: Nikon D5    Focal Length: 50mm vertical (27°) x 28mm horizontal (65.5°)    Camera height: 1.5m    Date: 19/03/2025 11:33

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.
