Grid Reference: 238591 900150 Distance to nearest turbine: 2.11km AOD: 32m

his viewpoint is located approximately 750m South of Oykel Bridge.

Travel from Ledmore on the A837 in a southeasterly direction until you reach Oykel Bridge. Pass the hotel on your left and immediately before the bridge, take the minor road off right. This turns in to a stone track. Stay on it for 700m and then keep left as the track bends left and crosses over the River Einig.

The camera location just on the other side of the river on the patch of open ground as shown in the adjacent photograph.

Extent of 50mm single frame image

Distance to nearest turbine: 2.11km      Camera: Nikon Z6      Focal Length: 50mm vertical (27°) x 28mm horizontal (65.5°)      Camera height: 1.5m      Date: 01/04/2025 12:53

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.
