Technical Appendix 5.2: Plates

List of Plates

Plate 1: View north northeast over the open and undisturbed moorland along the southeast edge of Site

Plate 2: View over open, undisturbed moorland in north portion of Site, facing north

Plate 3: View over in-use forestry track that extends through the Site, facing southwest

Plate 4: View along firebreak and route of proposed access track to the west substation and temporary construction compounds, facing west southwest

Plate 5: View over the east proposed substation and temporary construction compound areas (within forestry), facing southwest

Plate 6: View towards T5 location, partly within forestry, facing north

Plate 7: View towards T7 location, facing south

Plate 8: View towards T2 location partly within forestry, facing northeast

Plate 9: View along dis-used track and associated earthwork bank (Asset 35), facing northeast

Plate 10: View along the proposed western access to Site, facing northwest

Plate 11: View towards shieling settlement (Asset 47), visible on middle ridgeline under bracken, facing north

Plate 12: View over northeast east end of the east shieling settlement (Asset 47), facing northeast

Plate 13: View over modern pond and gravel bunds (Asset 48) with track (Asset 49) immediately beyond, facing southeast

Plate 14: View along historic track (Asset 49), facing southwest

Plate 15: View over revetted wall (Asset 50) adjacent to track (Asset 49), facing southeast

Plate 16: View over borrow pit (Asset 51) adjacent to track (Asset 49), facing north

Plate 17: View over culvert (Asset 52) underlying track (Asset 49), facing north

Plate 18: View over earth-cut drains (peat grips) forming part of wider drainage network (Asset 53) and showing potentially ancient prehistoric forestry remains being uncovered, facing west northwest

Plate 19: View over field boundary remnants (Asset 54), facing east

Plate 20: View over track (Asset 55; centre frame), visible as the course of greener vegetation, facing northeast

These plates accompany **Section 5.6: Walkover Survey** within **Chapter 5** of the EIA Report.

Plate 1: View north northeast over the open and undisturbed moorland along the southeast edge of Site

Plate 2: View over open, undisturbed moorland in north portion of Site, facing north

Plate 3: View over in-use forestry track that extends through the Site, facing southwest

Plate 4: View along firebreak and route of proposed access track to the west substation and temporary construction compounds, facing west southwest

Plate 5: View over the east proposed substation and temporary construction compound areas (within forestry), facing southwest

Plate 6: View towards T5 location, partly within forestry, facing north

Plate 7: View towards T7 location, facing south

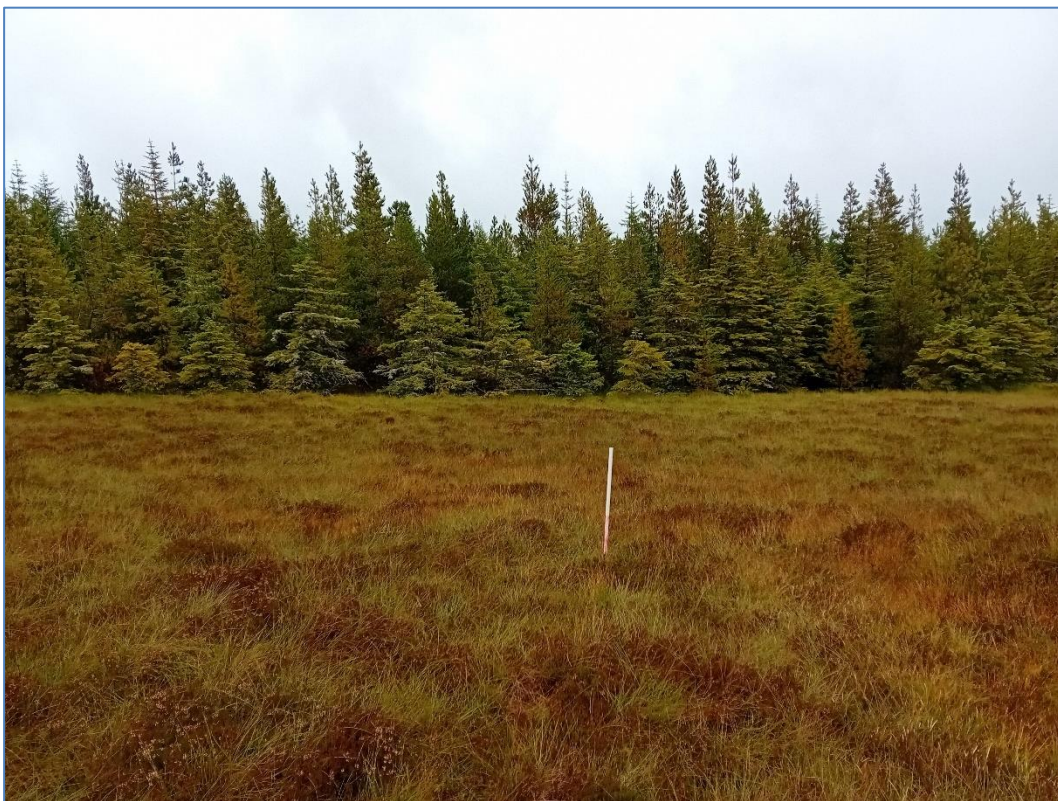

Plate 8: View towards T2 location partly within forestry, facing northeast

Plate 9: View along dis-used track and associated earthwork bank (Asset 35), facing northeast

Plate 10: View along the proposed western access to Site, facing northwest

Plate 11: View towards shieling settlement (Asset 47), visible on middle ridgeline under bracken, facing north

Plate 12: View over northeast east end of the east shieling settlement (Asset 47), facing northeast

Plate 13:
View over modern pond and gravel bunds (Asset 48) with track (asset 49) immediately beyond, facing southeast

Plate 14: View along historic track (Asset 49), facing southwest

Plate 15: View over revetted wall (Asset 50) adjacent to track (Asset 49), facing southeast

Plate 16: View over borrow pit (Asset 51) adjacent to track (Asset 49), facing north

Plate 17: View over culvert (Asset 52) underlying track (Asset 49), facing north

Plate 18: View over earth-cut drains (peat grips) forming part of wider drainage network (Asset 53) and showing potentially ancient prehistoric forestry remains being uncovered, facing west northwest

Plate 19: View over field boundary remnants (Asset 54), facing east

Plate 20: View over track (Asset 55; centre frame), visible as the course of greener vegetation, facing northeast

Plate 21: View over bridge (Asset 59) crossing the River Einer, facing north
