## Appendix 16.1 Meteorological Data

### Prestwick Gannet Meteorological Data

Table 16.1.1 below summarises the raw data received from the historical weather station data for Prestwick Gannet and held by the Met Office (2020).

**Table 16.1.1 - Summary of Raw Meteorological Data for Prestwick Gannet Met Station from 1981 to 2010**

| Month     | Number of Days in Month | Average Sun Hours per Month | Average Sun Hours per Day |
|-----------|-------------------------|-----------------------------|---------------------------|
| January   | 31                      | 41.67                       | 1.34                      |
| February  | 28                      | 71.53                       | 2.55                      |
| March     | 31                      | 103.16                      | 3.33                      |
| April     | 30                      | 158.15                      | 5.27                      |
| May       | 31                      | 214.11                      | 6.91                      |
| June      | 30                      | 190.77                      | 6.36                      |
| July      | 31                      | 182.66                      | 5.89                      |
| August    | 31                      | 167.06                      | 5.39                      |
| September | 30                      | 123.06                      | 4.10                      |
| October   | 31                      | 91.45                       | 2.95                      |
| November  | 30                      | 55.99                       | 1.87                      |
| December  | 31                      | 38.86                       | 1.25                      |

## Wind Parameters

Table 16.1.2 below outlines the wind parameters used within WindPro model for the Proposed Development. It adopts a 16 degree sector with 7,446 hours of wind per year (equivalent to the development being operational for 85 % of the year). Wind distribution data for the site is taken from Prestwick Gannet historical weather station data, the closest weather station to the Proposed Development.

**Table 16.1.2 - Wind Distribution at Prestwick Gannet**

| Direction | Wind Distribution | Hours of Wind / Year |
|-----------|-------------------|----------------------|
| N         | 2.40 %            | 179                  |
| NNE       | 2.28 %            | 170                  |
| NE        | 6.90 %            | 514                  |
| ENE       | 5.83 %            | 434                  |
| E         | 8.51 %            | 633                  |
| ESE       | 5.21 %            | 388                  |
| SE        | 5.42 %            | 403                  |
| SSE       | 5.27 %            | 392                  |
| S         | 10.55 %           | 785                  |
| SSW       | 5.43 %            | 404                  |
| SW        | 8.99 %            | 669                  |
| WSW       | 12.35 %           | 920                  |
| W         | 8.90 %            | 662                  |
| WNW       | 5.02 %            | 374                  |
| NW        | 4.65 %            | 346                  |
| NNW       | 2.30 %            | 172                  |
