

## We're innovative and community focused

Statkraft is dedicated to engaging with communities and bringing meaningful benefits.

We would like to speak with you about how our project can bring new investment to your community. We are open to your ideas.

### Community Benefit Fund

We are committed to a Community Benefit Fund that delivers £5,000 per MW installed, per year, in accordance with Scottish Government guidance.

### Shared Ownership

We are open to offering Shared Ownership on our projects, if there is local interest. We would like to hear your views on enabling the community to have a financial share in the project.

### Improved Broadband

Join our virtual exhibition to find out more about our approach to facilitate improved broadband access near our projects.

### Local Supply Chain

We want to work with local businesses to deliver our projects. Visit our project website for information on how local businesses can register their interest.

## Invitation to Virtual Exhibition: 21 May – 14 June 2021

### Loch Liath Wind Farm Proposal

We would like to take this opportunity to introduce ourselves, our proposal for Loch Liath Wind Farm, and the potential economic and environmental benefits it could bring.

We are bringing forward proposals for Loch Liath Wind Farm, located approximately 11km southwest of Drumnadrochit. In line with Scottish Government advice in relation to Covid-19, we are holding a virtual exhibition as well as online chat sessions, where you can find out more and help shape and inform the proposal.

### About Us

Statkraft is Europe's largest generator of renewable energy, with origins going back 125 years in Norwegian hydro power. Our Scottish headquarters are in Glasgow and we have 4,500 employees across 17 countries.
