

We're innovative and community focused

Statkraft is dedicated to engaging with communities and bringing meaningful benefits.

We would like to speak with you about how this project can bring new investment to your community. We are open to your ideas.

Community Benefit Fund

For West Andershaw we are committed to a Community Benefit Fund that delivers £5,000 per MW installed, per year. If consented, the project will generate £341,000* per year for local groups and initiatives.

*Based on 68.2 MW of installed capacity. If consented, value of fund determined by actual installed capacity.

Improved Broadband

Join our exhibitions to find out more about the outcomes of our broadband feasibility study.

Shared Ownership

We are pleased to offer Shared Ownership on our new development projects, if there is local interest. We would like to hear your views on enabling the community to have a financial share in West Andershaw Wind Farm.

Local Supply Chain

We want to work with local businesses to deliver our projects. Visit our project website for information on how local businesses can register their interest.

Please return the freepost reply card provided.

Invitation to Public Exhibitions

28 September – 29 September 2022

West Andershaw Wind Farm

Our first exhibition was held in August 2021 to introduce our plans for an extension to the west of Andershaw Wind Farm. Over the past 12 months we have refined the design. We invite you to review our plans before we submit them to the Scottish Government this Winter.

Andershaw Wind Farm, South Lanarkshire, 11 turbines, 140m tip height

A VARIETY OF WAYS TO FIND OUT MORE:

2 local EXHIBITIONS

3 week ONLINE EXHIBITION

1 online CHAT SESSION

New community benefit funding will be available through the West Andershaw project, if consented, and we look forward to exploring this with you and hearing your ideas.

We are pleased to be hosting two local in-person exhibition events in Crawfordjohn and Douglas and we look forward to welcoming you at these events.

About Us

Statkraft is Europe's largest generator of renewable energy, with origins going back over 125 years in Norwegian hydro power. Our Scottish headquarters are in Glasgow and we have 4,800 employees across 19 countries.

West Andershaw Wind Farm Proposal

Community engagement is very important to us.

Since introducing our plans in May 2021 we have listened to feedback to shape the development. The height of two turbines has been reduced and the layout revised creating the optimal design and to minimise the footprint of the wind farm.

For more information, visit:

www.westandershaw.co.uk

11 11 wind turbines proposed

£341k

£341k per year for a Community Fund*

A maximum height to blade tip:
9 to 250m
2 to 200m

Exciting new opportunity to talk about shared ownership and local suppliers

Hear about the outcomes of our broadband feasibility report.

Plan showing proposed West Andershaw Wind Farm and current operational wind farms.

2 LOCAL EXHIBITIONS
